

piRover Builds with K2

Scrum Standup Activity

Rev 1.0

Overview:

This lesson is your first experience with a Scrum Standup. Normally this sharing is provided verbally to a team. Due to the class being virtual and that this is your first exposure to this process, you will submit your update to the course site as well as present to the team.

Prerequisites:

Prior to beginning the instruction provided in this lesson you must have started the following:

1. piRover Build

Performance Outcomes:

1. Experience a Scrum standup
2. List the three questions answered during a standup

Resources:

1. <https://sprint.ly/blog/scrum-meeting-best-practices/>
2. <https://www.scrum.org/resources/what-is-a-daily-scrum>

Materials:

1. [Sample Scrum submission](#)

Directions:

1. The instructor will provide an overview of Agile/Scrum processes and discuss a “standup”
2. Use the resource link to learn more about scrum meetings.
3. Review the sample scrum submission.

Assessment:

1. Post your Scrum update to the site including a single image and your responses to the three Scrum questions by the deadline discussed.
