

Build Scrum 1

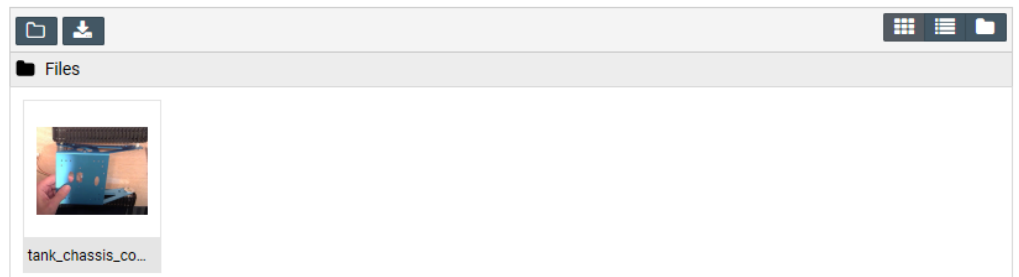

During the Build Scrum, each student will update the class on the build progress. Prior to the start of class, post image and responses here. Your entry will be displayed as you update the class.

- Upload a current image of your piRover build.
- Add text to respond to the following prompts. See the sample submission provided by the instructor.

1. What build steps have you completed since the last class session?
2. What items will be completed by the next class session?
3. What are your obstacles or impediments?

File submissions

Maximum file size: 100MB, maximum number of files: 1

Accepted file types:

Image files .ai .bmp .gdraw .gif .ico .jpe .jpeg .jpg .mxd .pct .pic .pict .png .svg .svgz .tif .tiff

1. I have the chassis completed. I've also viewed build video 2 and have the parts ready for the next steps.

2. I have time this weekend. I'm hoping to complete the remainder of the build.

3. Overall the build went well. I did struggle to stretch the tracks enough to get the back wheel onto the motor.
